

NATURAL CALMNESS

THE **NATURAL** PHARMACEUTICAL SOLUTION FOR **CALMNESS**

*KannaEase™ is a standardized extract of **Sceletium tortuosum** that it is derived from a traditional South African succulent plant known for its mood-enhancing and stress-reducing properties.*

COGNITIVE BENEFITS

KannaEase™ Sceletium extract has the ability to enhance mood and promote a sense of wellbeing. It also has potential to alleviate symptoms of anxiety, stress and depression.

STRESS REDUCTION

KannaEase™ Sceletium extract has adaptogenic properties which can help the body better cope with stress. It may promote relaxation and calmness, reducing the negative effects of daily stressors.

MOOD ENHANCEMENT

KannaEase™ Sceletium extract may improve cognitive function, including enhanced focus, concentration and mental clarity. It has potential to interact with neurotransmitter systems involved in cognitive processes.

SCYLETIUM tortuosum

HISTORY OF USE

Scyletium is a traditional medicinal plant used by the indigenous Khoi-khoi and San people of Southern Africa as a mood enhancer, sedative and analgesic for pain.

ORIGINS

Scyletium grows in the arid regions of the Cape province in **South Africa** and is very sparsely distributed. Cultivation of scyletium is therefore a necessity for sustainable use and **AFRIGETICS** is actively involved in the cultivation of this plant for sustainable commercial use.

ETHICAL TRADE

AFRIGETICS is compliant with Access and Benefit Sharing regulations of the **Nagoya Protocol** which ensures equitable benefit is given to indigenous knowledge holders.
